PLANNERS PROPOSE DRAINAGE SYSTEM VIA EAST LATIMER

K. D. Priestley, member of the Campbell Planning Commission proposed at the meeting last Thursday evening a pipe line be considered by the Public Works department to extend from the Winchester Road area, easterly along Latimer avenue to Los Gatos Creek, so that storm drainage waters may adequately be taken care of, the project to be undertaken while lands are still undeveloped. The commission approved sending the recommendation to the city council.

Priestly said the line should be large to take care of a wide area, and that engineering would be a factor. Nestor Barrett, planning consultant said that such an undertaking would be good insurance for proper drainage.

Planners had given architectural approval to a 23-unit apartment to cost $125,000 on the west side of Latimer avenue, east of Winchester Road and adjacent to property owned by Dave Rutherford and the Garrison apartments, the owner being G. Kornelson, the builder V. Ratzliff and the architect Gilbert Mathews. The building is to be set back 50 feet from the center line of Latimer avenue which planners said was to be a 60 foot wide street.

After studying plans of Emory Garrison to erect a building of 56,000 square feet to house seven stores and provide for 57 car parking spaces in front of the apartments on North Winchester Road between Latimer and Hamilton avenues, the planners rejected the application for rezoning from R-2 to C-1 contending that this action was for the good of the community. They also discussed but took no action on rezoning the northeast corner of Latimer avenue from Commercial to second residential as the owner, Dave Rutherford had stated he did not now intend to use the site for his mortuary, the purpose for which it was zoned by the commission in the event the high school acquired his present site.

Planners told Garrison he failed to show a need for the business zoning and that he would better extend his apartment holdings as also might be the use application for the Rutherford property in that the 23-unit apartment is getting started in the same locality.

Both Garrison and Rutherford protested, the former saying Campbell is being loaded with duplex and multiple dwelling units with commercial units being starved out whereas at Los Gatos, a city of comparable population size, encouragement is being given commercial building. Planners pointed to the two new shopping centers approved within the city limits. Rutherford contended the commission had no right to reopen matter of zoning his property and that he would go to law to defend his rights. He said it was zoned C-2-S which makes it subject to architectural approval. Barrett said the commission has the right to initiate such proceedings but that public hearings were necessary.

Gussie Baker, superintendent of Moreland School district submitted a map showing sites of schools approved and for possible new school sites in the next ten years, allowing for a 120 foot wide future highway. Planners commended receipt of this map and said a similar map will be asked from William Henley, superintendent of the Campbell Union School District.

Looking into the future, chairman Horace Logue assigned commissioners to work on a capital budget over the next six year period so that department needs may be anticipated in annual budgets. Commissioner John Cahill was assigned the fire department, Priestly to police, T. R. Solari to administration, J. A. Tomlinson to public works.

Cahill told planners in the meantime, that because of a change of residence, he found it necessary to submit his resignation to the city council but that he would serve for the next two weeks to complete this report.

CAMBRIAN TO VOTE ON TAX CHANGE TODAY

Close to fifteen hundred voters are expected to go to the polls today in the Cambrian Park School district to decide on raising the tax ceiling from 90c to $1.50 for operation and maintenance of schools. There are 2280 qualified voters in the district and about a 60% vote is anticipated.

Room mothers have sent out over 1000 letters to parents and have arranged transportation for those needing it to vote.

The present rate, one of the lowest in the county, has not been changed since 1927. The proposition was voted November 30 and lost 375 to 371 at a 25% vote.

In school financing Cambrian School gets 75% from state as compared with a 60% average, while local help is 25% as compared with 40% county average. The increase from 90c to $1.50 would help balance the budget.

After studying needs of the district with more schools to operate, the board decided the 60c tax increase was necessary in order to balance the budget. If, however the assessed valuation increases to the point where a lesser rate is sufficient, the board would set the rate to meet the needs, never however exceeding the $1.50 ceiling unless such action is authorized by the electorate.

If the election does not carry next Thursday the school faces a lower standard of education with high enrollments, poor physical equipment, lack of school supplies, lack of upkeep supplies, insufficient books and drastic reductions in bus service, and with the cafeteria, instrumental music program, shop and homemaking program and speech program either eliminated or drastically reduced.

Scout Activities Are Outlined At District Meet

E. Mercer and Warren Hill.

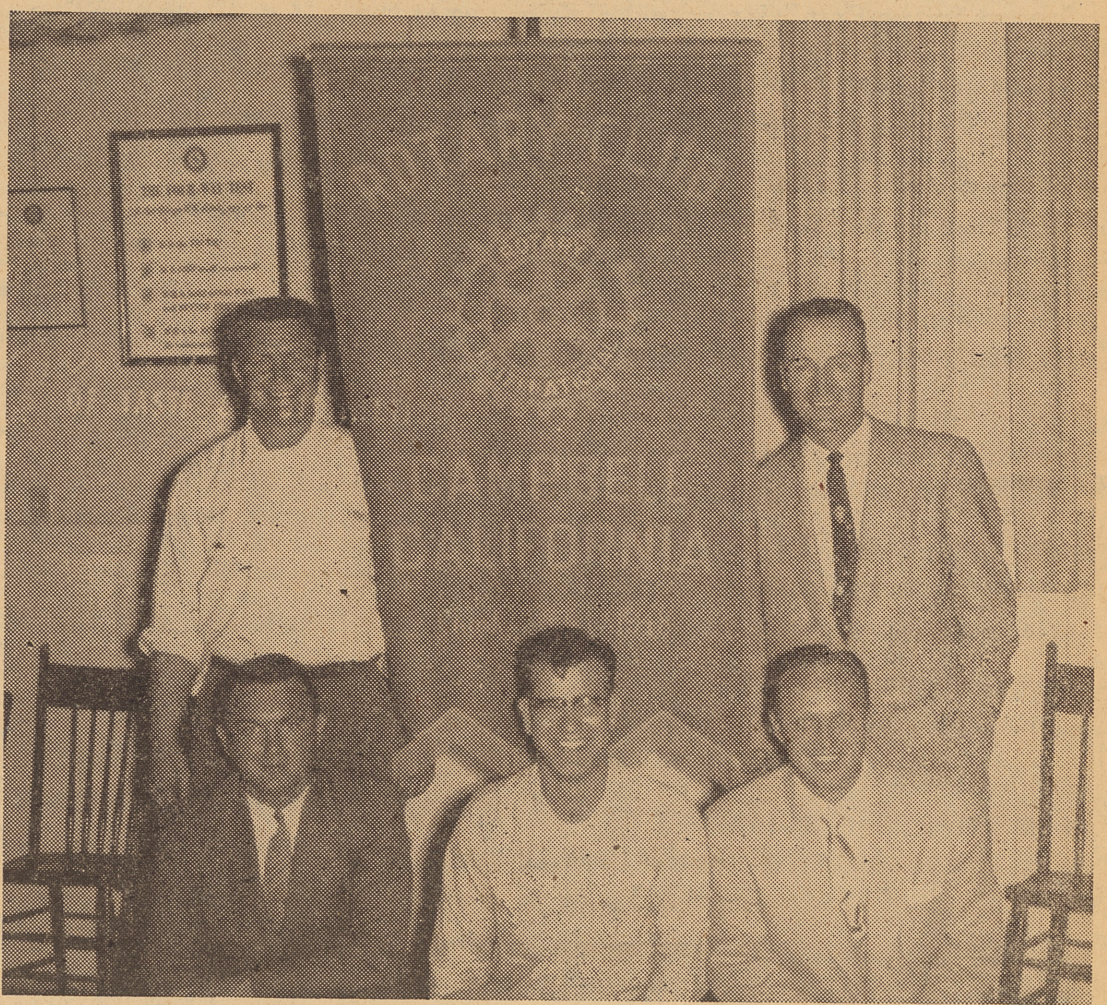
The Cub Scout roundtable was scheduled for April 12 at the San Tomas school, while Camp Hi Sierra Work Party was set for May 28, 29, and 30 at which a crew from each troop will attend in order to get camp grounds ready for Spring camping trips.

Ken Robinson said the Explorer Roundtable is held on the third Monday of each month with leaders on a council-wide basis. The Explorer Ball is set for April 1 at the Women's Club in San Jose. The Exploree will be June 4 and 5.

Registrations for High Sierras are half closed. Kiwanis troop 28 is in the first period, June 26-July 3. The July 10-17 period is closed while there are two openings in the July 24-31 period, August 7-14 period is open, July 3-10 is open for one troop, July 17-24 is closed, July 31-August 7 isopen as also is August 14-21 period.

Mark Judy emphasized registrations for Scout-O-rama May 13-14 at the Fair Grounds must be in by March 15.



For some months, the Campbell Rotary Club has been quietly working on a project of tremendous interest to Campbell's youth. It is the construction of a baseball stadium on the Rosemary School grounds. The stadium includes fence, diamond, dugouts, backstop—all the ground arrangements necessary to provide Campbell's Little League with a first class playing field. The project is not yet complete, but is well along and will be ready for the opening contests in Little League play.

Pictured above are the men who are primarily responsible for the construction of this field, l. to r., rear, Hal Beatty, Merv Willoughby. L. to r., front, Neal Royer, Doc Arends, Homer Hyde.

ANNEX AREAS MAY EXTEND WEST LIMITS

Three new annexations for Campbell, including a 135 acre tract westerly to San Tomas Aquino Road will be processed next Monday at the city council meeting, preliminary to being offically presented to the planning commission. The maps were approved by the Boundaries Commission on Monday.

Jules Duc Jr. of El Rio Develop- Company filed the maps with the boundary commission. The 135 acre area skirts the north side of Campbell avenue to San Tomas Aquina road, another 55 acre tract at the northwest corner of San Tomas Aquina road would also include a five-acre shopping center and sites for 230 new homes. Another 35-acre tract north of Latimer avenue would bring the total to 225 acres approved by boundaries commission for annexation to Campbell.

Boundary commission approved six other maps which would push San Jose city limits south to Blossom Hill road.

CONFIDENCE VOTE GIVEN LOCKE BY CITY COUNCIL

Members of the city council at a special meeting Monday evening engaged John Tawney, 24 year old Sunnyvale police officer to the Campbell force to succeed Officer Thomas J. Casey, resigned, effective next Monday. Mayor Richard Morton said 25 applications are on file and that from this list a successor to Officer Jerry O'Connell will be made, effective October 23rd.

At the same time the council gave a vote of confidence to Police Chief Robert Locke after a favorable report from a committee of law enforcement officers from other cities on progress of the Campbell Police department was made covering the two and a half years since the department was organized.

The one week accrual times are given Officers Caesy and O'Connell, whose resignations indicate they are accepting other positions. Mayor Morton said both resignations were accepted with profound regrets and in appreciation of excellent work, admitting that with a small department the opportunities are limited. The fact that two members of a force here resigned seem important in relation to the size of the force. He said that many of the 25 applicants are experienced officers from other cities.

Tawney who comes to the force Monday was graduated from Bellarmine where he was active in football and boxing. He is married, has three children and is interested in making a career of police work. He was formerly with Department of public safety, Santa Clara County fire department.

In that way children learn to keep rules and regulations and to respect adult authority so that they are less likely to become juvenile delinquents. Menard was introduced by Police Chief Robert Locke who also made abrief address.

EDITORIAL

We are none too sure about the benefits of the proposed $20 tax deferment they talk about back there in Washington. The way they take it off here and add it on there just doesn't excite us any more.

CAMBRIAN VOTES TODAY

Voters in the Cambrian school district are at the polls today to once again consider the need for raising the tax limit so their schools will have essentials. This is an exceptional condition in which a tremendous population has come in to increase enrollments and exceed all estimated classroom facilities.

The vote in this case is not to provide for more classrooms or for more schools, but it is to provide means for sustaining the classrooms and the school system with supplies and service.

It is a vote to put today's value on today's dollar.

When one stops to think that not since 1927 has this school district increased its 90c basic tax rate. some credit must be given a very business-like school administration, seeking to get full value for every dollar. But since 1927 so many changes have come about in school needs and in monetary values that operations simply cannot go on with the old pattern.

The voters today seem to better understand this condition than they did a few months ago when the proposition lost by but four votes. The school board had no alternative but to call another election at an additional cost. If it fails again, which we doubt that it will, the board will again have no alternative but to call another election, and there is no economy to that.

Other schools acted on this matter long ago, placing even higher ceilings.

CAMPBELL ROTARIANS KEEP IN STEP

At the tender age of seven, in relationship to the parent body's 50 years, the Rotary Club of Campbell is this evening celebrating its own anniversary along with the Golden Anniversary of Rotary International. The past seven years have marked a steady growth of the local club, and a marked adherence to the object of Rotary, which is to encourage and foster the ideal of service as a basis of worthy enterprise and. in particular, to encourage and foster:

1. The development of acquaintance as an opportunity for service;
2. High ethical standards in business and professions; the recognition of the worthiness of all usefull occupations; and the dignifying by each Rotarian of his occupation as an opportunity to serve society;
3. The application of the ideal of service by every Rotarian to his personal, business and community life;
4. The advancement of international understanding, good will, and peace through a world fellowship of business and professional men united in the ideal of service—"Service Above Self," the club motto.

Campbell Rotarians, though a small group, have already left many marks in the community. Among these are the erection of Campbell street signs, the construction now under way of a Little League stadium on Rosemary School grounds, clothing drives and many more smaller, unsung achievements.

Rotarians leaven their luncheon gatherings with considerable humor, and in the process garner many "fines," proceeds of which go to swell the Club treasury, putting it in a better position to finance its objectives. The members are the only source of finance —the club does not employ fairs, whist parties or other means as fund-raising projects.

As a personal thought, I, as a member of the local club, am proud of this record of achievement, and value my membership most highly.—Cliff Cassiday.

TIDELANDS MONEY FOR STATE SERVICE

Assemblyman Bruce Allen seems to be on the right track in trying to get some of the tidelands money away from Long Beach and have is used on the Feather River dam project which would bring a fresh water supply into the Santa Clara Valley.

Allen introduced a bill to take the tideland revenues of between 150 and 200 million dollars for a statewide water plan. Of course there is moaning down south that the money belongs there and that they are taking good care of it. But the people of the state voted the tidelands issue, the water plan is for the state, and we can't see why this plan is not a fair one for the state as a whole.

WE SAVE OUR WILDERNESS

California is fortunate in having four national parks, several scenic national monuments and 18 wild and wilderness areas in its national forests. Other States not so well endowed by nature or which were settled earlier are not so well off.

The protection of these few remaining examples of America's primeval wilderness is the object of the Fourth Biennial Wilderness Conference which will be held next week in Berkeley. The Butano forest in San Mateo County is one of these areas.

Even now there are proposals pending to build 18 dams in 11 national parks and monuments. Wilderness areas are eyed covetously by miners and lumbermen. The forthcoming Wilderness Conference will try to hold the line. It deserves support.

THEY'RE TRYING To get me to go to the Roman banquet this Saturday night in the Girls' gymnasium at the High School, one of the requirements being that I, like all the rest, must bring my own toga which can be a bed sheet, which girls at the door will drape around my robust anatomy, fix me up with a sash, place a wreath upon my brow then sit me down at a table where ham and chicken, bread and honey along with other foods of dear old Caesar's time before any one ever thought of a table d'hote menu, the whole idea coming from the Latin Class who say something of being the way Intelligentiae Scholae celebrate the Ides of March, and expecting 300 for the affair, the gymnasium to have Doric columns prepared by Jon Wilson and Pete Parysek while blue and gold table decor will be by Jo Buccelato and Elaine Meyer and with Jo Weidner directing gladiators, dancing girls, wrestlers, a musical and short play, Orrin Cross finally giving Marc Anthony's speech, all the while petite freshman slave girls serve the food . . . I've an idea everyone attending will have a good time and plenty to eat.

Bruce Allen Asks For Action On Water Problem

SACRAMENTO — Assemblyman Bruce F. Allen of San Jose declared this week that he is opposed to calling a special session of the legislature to deal with California's water problem.

Allen said the current regular session should pitch right in on proposals having to do with water rights, development, and administrative organization without delaying action to a special session.

A resolution has been submitted to the legislature asking Governor Knight to call a special session on water later this year.

"This move is nothing but an attempt to defeat water development bills which have been proposed in the present session," Allen declared.

Allen has proposed that revenues which would result from passage of one of his measures reclaiming oil royalties from the city of Long Beach should go toward financing the huge Feather River Project which would supply water to Santa Clara county.

Knight has stated that he believes the legislature should dig right in on water legislation during the present session and not postpone action until a special session. But he said he would call one if the members of the legislature want it.

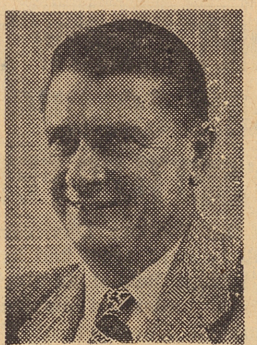
Vice President and General Manager



CHARLES B. PARBURY

A while back I noticed a newspaper story about a small Southern California community which suffered a severe water shortage when a pump on one of its three wells broke down. It took several days to complete repairs, and during the emergency all consumers were rationed drastically. They even had to haul in additional water supplies by tank trucks.

I am very thankful that I don't have to lie awake nights worrying about the ability of San Jose Water Works to meet crises such as heat waves, breakdowns or broken mains. We are prepared for such emergencies.

Our average daily production is 27.3 million gallons, but when nature turns on the summer heat the water demands of our 60,000 customers really skyrocket. Our maximum day's consumption in this area has soared to 56.9 million gallons, as our customers cooled off under their showers or poured the water onto their thirsty lawns and gardens.

Joe Slide-Rule, our statistical wizard, says that our average day's production, "weightwise," figures out to 114,000 tons of water. However, on our maximum day we have produced a startling total of 238,000 tons.

Now, just suppose the impossible—that we should be caught in the awful predicament of that unfortunate Southern California community. On a peak day we would have to haul into this area an extra supply of water to the tune of 18,966 tank truckloads.

Our storage tanks and our reservoirs, including huge Lake Elsman Reservoir, have a capacity of 2,344 million gallons to meet the enormous water demand of our 60,000 consumers.

Girl Scouts' Cookie Sale Off To Good Start

The annual Girl Scout cookie sale which began last Saturday is progressing amazingly well, according to Mrs. Betty Stoner, cookie chairman for the Campbell area. Forty-eight troops of the Campbell Grammar School district comprising 600 girls have sold a total of 900 cases or 10,800 boxes of cookies since the beginning of the sale. The cookies are made by the Weston Baking Company this year and sell for fifty cents a box.

The cookie sale is held annually to complement the Scout income which is party contributed through the Community Chest. By this areawide event Girl Scouts hope to earn enough to provide Girl Scouting for the growing area and to improve Camp Skylark. By selling cookies the girls help their own troops and provide more and better Girl Scouting for the community.

Anyone who wishes cookies and has not been contacted by the Girl Scouts should call Mrs. Henry Stoner, who will then see that a representative from a nearby troop fills the order.

Campbell Man Wins $1936 For Idea At Plant

SUNNYVALE — A check for $1,936, highest award for a suggestion ever made to a Pacific Coast employe of the Westinghouse Electric Coporation, was presented today to Albert E. Marchese, machinist at the company's plant here.

Mr. Marchese, who has earned $340 for earlier suggestions, lives in nearby Campbell, Route 2, Box 354, E. Parr Ave.

George F. Gayer, plant manager, presented the award, which was made under the company's program of rewarding employes who submit ideas which save time, money and materials.

Mr. Marchese suggested a mechanical change in a vertical boring mill which makes it possible to machine larger castings on it. Previously, the castings required horizontal boring mills for machining, a more costly operation.

Campbell is linked with 8400 cities throughout the world today having a Rotary club commemorating the 50th anniversary of the founding of the order. L. W. Harmon, president of the local club said at a recent meeting:

"Rotary activities throughout the free world are based on the same general objectives as those of our own club—the development of fellowship among business and professional men, the betterment of communities, leading boys and girls into good citizenship, the promotion of high standards in businesses and professions, and the advancement of international understanding, good will and peace.

"The one basic objective of Rotary," he continued, "is its 'Ideal of Service' which is to be thoughtful of and helpful to others. To attain this objective, Rotary seeks all that which brings people together and avoids all which separates them. That is the reason why Rotary has become a world-wide institution, whose ideals have been accepted by men who differ widely in language, customs, and historical backgrounds."

Rotary's world-wide Golden Anniversary observance will culminate with a great convention in Chicago, May 29-June 2, where many thousands of Rotarians from most of the countries of the free world will rededicate themselves to Rotary's motto of "Service Above Self".

"We are observing not only the golden anniversary of the founding of Rotary, but of the entire service club movement," asserted President Harmon, since Rotary was the pioneer club to establish as its fundamental characteristic the spirit of altruism and of service to mankind.

Four-Way Test Is Cornerstone Of Rotary In Business

1. Is it the TRUTH?
2. Is it FAIR to all concerned?
3. Will it build GOODWILL and BETTER FRIENDSHIPS?
4. Will it be BENEFICIAL to all concerned?

These 25 words were written in 1932, during the depths of the depression, by Herbert J. Taylor of Chicago, who is President of Rotary Internatoinal during its Golden Anniversary years. Assigned by creditors to save a company from bankruptcy, he found that debts were $400,000 more than its assets. His company made a good product but so did its competitors and they had the added advantage of being in a strong financial condition.

Faced with tremendous handicaps, Mr. Taylor decided that in order to succeed he must develop in his organization something which his competitors might not have in like amount.. That was the character, dependability and service-mindedness of his personnel. As a yardstick by which everyone in the company could measure their relations with others, he developed the four questions known around the world today as the "Four Way Test."

Its adoption in checking plans, policies and advertising, marked the turning point in the company's history.

Campbell Rotary Club Is Active In Civic Affairs

By Vivian Faulkner

From the very beginning the Campbell Rotary Club has been active in civic affairs and interested in community projects since its organization by a representative of the district governor and the assistance of the district governor, Bake Bacon of Santa Clara. The club was organized in November 1948 with 15 business men, one from each line of business; and the charter approved on February 4, 1949. From this beginning the membership now has grown to 32 members.

Club members not only take part in civic affairs but are interested in bettering International understanding by corresponding with Rotary Clubs in Denmark, Italy, Mexico, and South American countries about their communities and exchange information on crops, business, and what Campbell is like as to people, residence and climate.

A few of the projects undertaken by the local club include installation of street signs at all major intersections, building the Little League Stadium at Rosemary School, collecting and shipping clothing to Parma, Italy, where it is distributed by a Rotary Club to needy families.

The Club's first president who helped guide the organization was James B. Arends Sr., followed in order by Forrest Reese, Bill Maderis, Home Hyde, Joaquin Payne, Emerson "Doc" Arends and Lester Harmon. Newly elected president Cel Gerevas will take office in July.

INTERCLASS TRACK MEETs

The cindermen of Campbell sharpen up their spikes as the seniors and sophomores meet the juniors and freshmen in an interclass track meet scheduled to start at 3 o'clock, Friday, March 11.

This interclass meet has been tradition here at Campbell for the past few years and to date has been a good way to test the strength of the team. The seniors and sophomores won last year's meet by a score of 142½ to 125½.

LUKEHART TO PLAY IN NORTH VS SOUTH GAME

Tackle Gary Lukehart of the Campbell football team was selected to play in the North vs. South football game to be held sometime in August. Lukehart is the first man from Campbell to achieve this award, and he and Rich McNiel of Santa Clara make the second and third players to go from this league. This is quite an honor for Gary as only 25 men from Northern California can go.

Bonnie Chapman, Freshman, Wins Speech Contest

For its fifth straight victorious meet, the Campbell High Debate Club won additional honors in a ten school speech tournament held at Oakland's Fremont High School last Saturday.

Campbell entered seven speakers, all of whom placed in the finals. Most spectacular winner was Bonnie Chapman, a freshman in her first year of public speaking, who won first place in impromptu speaking in the tough "A" division.

A Campbell debate team of Dennis O'Flyng and Everett Avila took second place behind a Bellarmine duo.

The Campbell debaters speak in at least two meets a month, and also serve administrative classes at the high school with membership drive pep talks as well as class explanations. The group is led by advisor, James Peabody, a graduate of Stanford University.

New Church To Have A Festival

A Spring Festival is scheduled to be held by the Women's Fellowship of the First Congregational Church of San Jose on Friday, March 18, from 1 to 9 p. m. at the new church site at Hamilton and Leigh Avenues.

More of a get-acquainted party than a fund-raising event, the Festival's primary purpose is to give families of the surrounding area a chance to see the new church buildings, to meet people of the church in an atmosphere of relaxed informality, and to provide a good time for all. This is in keeping with the congregation's desire to become a community church serving the entire neighborhood regardless of anyone's previous church background.

Events have been planned to appeal to the whole family. Tea will be served from 2 to 4 p. m., and the men of the church are providing a barbecue dinner at six o'clock. Two performances of the play "Ghosts in the House", will be presented by Mrs. William Helm's dramatic students. Movies and a Kiddie Karnival have been planned for the youngsters' entertainment. A fortune teller will be on hand and wrapped packages for young and old will be featured at the Grab Bag booth. Free nursery care and supervised play for children will be available.

Proceeds from the sale of stuffed dolls and toys, childrens clothing, aprons, dish towels, bakery goods, potted plants, and cut flowers, will be used for church furnishings.

Reverend Leonard H. Hildebrandt is pastor of the church, Mrs. C. Josh Anderson is president of the Women's Fellowship, and Mrs. George Dains is chairman of the Festival arrangements.

CHARLES ROLAND, BLIND CAMBRIAN PARK VET, TO GET SEEING-EYE DOG

Charles Roland, blind World II veteran who lives at 15285 Charmeran Avenue, in Cambrian Park, began a new life on Saturday on being graduated from Guide Dogs for the Blind, Inc. at San Rafael, where he has trained for the past month with his Guide Dog "Margaret", a beautiful Weimaraner who will "See" for him from now on.

Roland, who is married and has three children, plans to support himself and his family "now that Margaret has given me mobility and independence."

The 32-year-old air corps veteran has hopes of getting a vending stand in Santa Clara county. Failing this, he is considering a possible job as an x-ray laboratory technician.

"I know I could do both jobs, with Margaret around. She makes the difference between living a full life and just sitting back in the dark, waiting. With her, I can do anything," he says.

For the past month, Roland has lived at the training center of the Guide Dog school and worked eight hours a day with his future "eyes", Margaret. His training began with quiet walks up country lanes, but in his fourth week he was crossing the busy intersections of San Francisco during noon-day traffic alone—except for Margaret.

Roland Risso Has 25-Year Service In Bank of America

Roland Risso, manager of Cambrian Park branch of Bank of America, this week completed a quarter century of continuous service to the statewide institution.

He is now eligible for membership in the bank's Quarter Century Club, an organization composed exclusively of officers and staff members with 25 or more years of service.

A native Californian, Risso joined bank in 1930 as a clerk at San Francisco headquarters office, subsequently serving at branches in San Mateo, San Bruno and San Carlos. He was promoted to branch manager in 1954 when he was assigned to Cambrian Park branch.

Risso attended University of Santa Clara and is active locally in Kiwanis Club, Ground Observer Corps, and Chamber of Commerce.

More than 1700 members of this club are active on the bank's staff today.

Les Harmon Has New Associates

Two friends of long standing of "Les" Harmon, Alfred and Viola Conley, are now associated with him in his Insurance business. Mrs. Conley will be the new secretary in the office and Mr. Conley will write insurance in the field. Both are licensed insurance writers of all types.

The Conleys are former Campbell residents and have many friends in this area. Mrs. Conley was a close friend of the late Mrs. Silver Harmon and was associated with her for more than twenty years when both worked for the Western Mortgage Corporation, West Coast Loan Correspondence, for the Metropolitan Insurance Company.

A few years back the Conleys moved to a farm they bought in Missouri and while living there were visited by Les and Silver Harmon. They have since sold the farm and have been back in Campbell the past two years.

PRUNES, RAISINS, PINEAPPLES TOPIC AT KIWANIS MEET

Plans were announced Tuesday at the Kiwanis Club meeting of a joint meeting April 19th with the Kingsburg Club, south of Fresno for which a bus has been chartered to take 41 passengers at noon from Campbell and return at midnight. Thirty-five members signed for the trip when the announcement was made by Henry Jewell, chairman of the inter club committee. Bud Levenberg and Lowell Benson are also on the committee. The two clubs exchange meetings in the same manner each year, Campbell as the home of the Sunsweet prune, Kingsburg as the home of the Sun-Maid raisin.

Pineapples from Hawaii was a topic at the Tuesday meeting. Jim Bell presented colored movies of the islands, the pineapple fields and the Dole Company operations. It was explained that the company recently moved its sales division from San Francisco to San Jose resulting in 100 employees and their families moving into this area. Program chairman was Ray Bishop.

Visitors present were Billy Wilson, Bob Schultze, Bern Hardwick and Ed Bowling.

President Ethan Lanphear announced appointment of L. E. Means, Wayne Fontes, William Enochs and Henry Jewell on the scholarship committee, Ken Robison, chairman of the vocational guidance committee and Milt Nelson, chairman of the church committee.

ARTHRITIS?
I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.
Limited space prohibits telling you more here but if you will write me, I will reply at once and tell you how I received this wonderful relief.

Girl Scouts of all ages gathered at Cherry Lane School yesterday to inspect a cedrus deodora (living Christmas tree) which the scouts gave the school. Second from left is Christine Kahrmann in the uniform her mother wore twenty years ago when conservation and service were the same as today in girl scout work. Others in the picture, left to right, Carol Rumbaugh of troop 145 Campbell, Christine Kahrmann of troop 125; Kathy Hyde, troop 85 of Cherry Lane; Judy Weymouth, troop 90 (senior Campbell High School; Mary Clair O'Brien, Troop 219 of St. Lucy's; Ann Christianson, Troop 274 of Hamilton; and Carol Jeanne Palm of Rosemary.

KINDERGARTEN REGISTRATION TO START MONDAY

Spring registration for the next year kindergarten classes in the Campbell Union School District will be conducted in the offices of all elementary schools beginning next Monday and continue until the Easter vacation, according to William Henley, district superintendent.

In order to enter kindergarten, children must be four years and nine moths old on or before September 1, 1955. Parents should bring birth certificate or other proof of age at the time the child is to be registered. A large enrollment is expected and the early sign-up will help school officials plan properly for the new year.

GIRL SCOUT WEEK TO BEGIN SUNDAY

Girl Scout Sunday was observed March 6 by Brownie, Intermediate and Senior Scouts attending their churches in uniform and will mark the beginning of Girl Scout week.

On March 12, 1912, Juliette Gordon Lowe organized the first company of "Girl Guides" as they were called at this time, based on her experiences as a Girl Guide leader in Scotland and England. The name was changed to Girl Scouts the following year. The organization has grown through the years until now there are two million girls in brown and green throughout the United States. Girl Scouting has a place for every girl from seven to seventeen in its program and depends on adult volunteers for their leadership to make this possible.

Campbell Couples Vacation In Palm Springs

Mr. and Mrs. George Jeffers and Mr. and Mrs. Joseph Agostinho, who have just returned from a leisurely 17day winter vacation in Palm Springs and Arizona, discovered a number of other Campbell families also like to bask in the warm winter sun of Southern California and Arizona.

The two couples motored first to Palm Springs where they took numerous pictures of interesting places, and the two men visited the Rotary Club which boasted 136 visitors on that particular day. It was here they found 17 other Campbell residents enjoying a winter vacation. When the Jeffers and Agostinhos attended Church on Sunday morning the minister announced the number of visitors present and said 11 were from Campbell.

From Palm Springs the Jeffers and Agostinhos drove to Wickenburg, Arizona, center of the Dude Ranch country and gold and silver mines. Here they attended a "Chuck Wagon" breakfast in Palm Canyon, then went on to the Boulder Dam and wound up their trip by spending a few days in Death Valley before driving home.

Other Campbell people on vacation at Palm Springs at the same time were Mr. and Mrs. Herbert Shadle, Mr. and Mrs. Ralph Hyde, Mr. and Mrs. W. N. Lloyd, Mr. and Mrs. A. C. Curry, Mr. and Mrs. Dave Sanders, and Mr. and Mrs. Root and their daughter.
